► **Amirhossein Yousefi Keysari is the founder of KAAF Photo and one of the judges of the first stage, who said about the contest:**

Thanks to all the photographers who have entered the contest.

The judging of the contest was done in a completely scientific and professional manner according to the fishbowl technique, but it should be noted that many good photos were sent to the contest, and I liked some of these photos, but in the end, the judging was based on the opinion of the crowd. The photos did not make it to the final stage, which is a common issue in the judging of photography contests. But by increasing the number of judges and the multi-stage judging by the photos, we tried to have a fair judgment, and this is one of our values.
